**FOR IMMEDIATE RELEASE**

***Journey to Space 3D* Launches at Whitaker Center Starting January 30**  
*Visually Stunning Film Explores NASA's Plans for a Manned Mission to Mars*

Harrisburg, PA- On Saturday, January 30, 2016, Whitaker Center for Science and the Arts will debut *Journey to Space 3D* in the Select Medical Digital Cinema. Through stunning imagery and immersive sound, the film grants a rare glimpse into what it's like to go where so few have gone – the planet Mars and beyond. Narrated by Sir Patrick Stewart, *Journey to Space 3D* is a must-see in Whitaker Center's immersive, premier large format theater.

*Journey to Space 3D* highlights the history of the NASA space program and some of the most impactful advances during its existence. The film pays homage to the Space Shuttle Program and those individuals who paved the way for the astronauts of today. Viewers are introduced to new technology which will make the future of space travel possible. Orion, NASA's first spacecraft designed to carry humans on long-duration deep space exploration missions; Olympus, an inflatable transit habitat; and the Space Launch System, a giant rocket capable of carrying both Orion and Olympus. With the Select Medical Digital Cinema's towering four-story screen, 4K resolution and captivating sound system, guests can marvel at the wonder of space without ever leaving their seat.

Movie reviews by member of the press are welcome and can be scheduled by e-mailing Ashlee Hurley at [ahurley@whitakercenter.org](mailto:ahurley@whitakercenter.org) at least three days in advance.

Tickets start at just \$9.50. Running time: 45 minutes. For tickets, show times and more information, please visit [whitakercenter.org/journeytospace](http://whitakercenter.org/journeytospace) or call 717-214-ARTS.
