FOR IMMEDIATE RELEASE

Living in the Age of Airplanes
Renewing Your Appreciation of Flight
Sponsored by

HARRISBURG, WHITAKER CENTER (July 24, 2015) — On Saturday, July 25, 2015, Whitaker Center for Science and the Arts will debut *Living in the Age of Airplanes* in the Select Medical Digital Cinema. Sponsored by Harrisburg International Airport, *Living in the Age of Airplanes* reminds us how the invention of flying has changed the way we live. *Living in the Age of Airplanes* will be on screen through early fall.

Living in the Age of Airplanes explores the ways in which the world has changed as transportation has evolved, especially in the years since airplanes were invented. From increased cultural exchange to the rapid globalization of trade and migration, aviation and flight have changed how humans interact with each other and with the planet.

Filmed in 18 countries across all 7 continents, the film explores the countless ways airplanes affect our lives (even when we don't fly). The amazing cinematography and sound of this film is amplified by Whitaker Center's 4-story cinema screen and immersive sound system. With a fascinating take on history, breathtaking visuals, soaring music and a truly unique perspective, *Living in the Age of Airplanes* shows the airplane in a fresh light as it takes audiences on a breathtaking adventure around the world.

Tickets start at just \$9.50. For show times or more information, please visit whitakercenter.org/airplanes or call 717-214-ARTS.

Whitaker Center for Science and the Arts is a non-profit center for the arts, education entertainment and cultural enrichment located in the heart of Harrisburg's vibrant downtown. Whitaker Center is home to the Sunoco Performance Theater, Harsco Science Center and the Select Medical Digital Cinema at Whitaker Center, featuring a four story screen and immersive sound system. Visit whitakercenter.org for a full list of events, shows, hours of operation and ticket rates.
