

VIDEO INSTRUCTIONS

Here are instructions to help guide you with recording the video of your science fair project.

- Preferred video formats: 1080p (1920 x 1080) and 720p (1280 x 720 HD) .mp4.
- Do not add any music to avoid violating copyright laws.
- Do not use photos, videos or graphics found online unless you have written permission from the owner of the images.
- When recording at a location, make sure you have permission by the property owner.
- If recording talent speaking on camera get as close as possible to the device and choose a quiet location.
- When recording the video, position talent or objects with light, such as the sun, in front of them. If the sun or bright images are behind them, it will make it difficult for the camera to correctly balance the image

BACKGROUND TOO BRIGHT

BACKGROUND CORRECTED

- Hold the device horizontal, not vertical.

HORIZONTAL – CORRECT

VERTICAL – NOT CORRECT
